Artists use visual elements and principles such as line, color and shape as tools to build works of art. One of the most important things to look for in works of art is the way these works are designed or assembled. To do this, you need to know what are the elements and principles of art and how they are used to create art objects. Do you know what the elements and principles of art are? Can you even name a few of them, or how they are used to create a work of art. This quiz is designed to test your knowledge.
